

Thank you for choosing Bolt

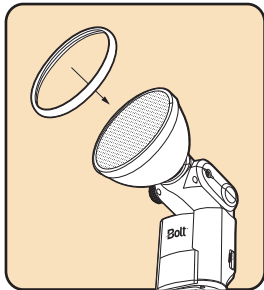

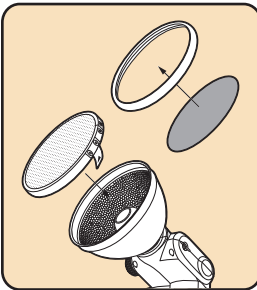

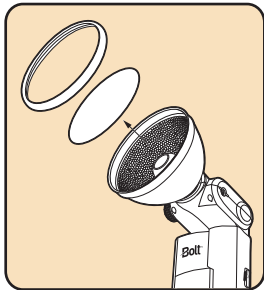

One-year limited warranty

Congratulations on the purchase of your Grid and Filter Kit for the VB-Series Bare-Bulb flashes. This special effects kit incorporates a 50° grid, perfect for focusing light onto a specific area of a subject. The kit also includes yellow, blue, green, and red color filters, allowing the user to manipulate the mood and accent lighting. **To install the grid or color filters, please follow these steps:**

Remove the retaining ring and diffuser from the reflector.

Insert the grid into the mouth of the reflector and/or color filter(s) into the retaining ring.

Reinsert the retaining ring on the reflector to secure the installed accessories.

NOTE: Filters can be stacked to create different color effects.
