Beauty Dish Reflector INSTRUCTIONS

Introduction

Congratulations on the purchase of your Impact Beauty Dish. The Impact Beauty Dish is available in 16", 20", 22", and 27" versions. It features a neutral white reflector and mounts onto your strobe to reflect and diffuse light, creating a shadowless effect that offers greater contrast and texture than a softbox or an umbrella. Because beauty dishes produce a natural-looking catch light, they are ideal for fashion and portrait photography.

Note: The Beauty Dish requires the correct mounting adapter (sold separately) in order to mount onto your strobe.

Recommended Accessories

Additional accessories are available from Impact. Mount the Impact Beauty Dish to your strobe with an Impact Mounting Adapter. Attach an Impact Diffuser Sock to soften the light further, or an Impact Honeycomb Grid to change the intensity and shape of the light.
