

Posing Table

ASSEMBLY INSTRUCTIONS

Parts List

- 1 – tabletop
- 1 – 3/8" x 1" hex head screw
- 2 – 1/8" x 3/8" screws
- 1 – mounting bracket
- 4 – 1/4" x 1/2" screws
- 1 – pneumatic cylinder
- 1 – locking knob
- 1 – pedestal base
- 5 – casters (or glides)

Step One

Remove all the parts from the carton and make certain you have all the items in the parts list above and in the correct quantity.

Step Two

Insert the casters (glides) into the pedestal base. Be sure all casters are inserted securely.

Step Three

Attach the mounting bracket to the pneumatic cylinder using the 3/8" hex head screw and the two 1/8" x 3/8" screws. Firmly tighten all screws.

Step Four

Using the four 1/4" screws, fix the mounting bracket to the table top. Tighten all four screws securely.

Step Five

Push the pneumatic cylinder down onto the pedestal base until it is secure.

Step Six

Adjust the table top to your desired height and tighten the locking knob.

Make certain all screws are tightened fully before using this posing table.
