● DVD MODE

The unit has a separate menu system to set up the DVD playback. When in DVD Mode, press the key D>SETUP on the remote control to enter the main menu of the system setup.

1. When you have entered the menu setup system press the direction key marked ◀ or ▶ to move the cursor. When in this system you need to set up the following three sections:

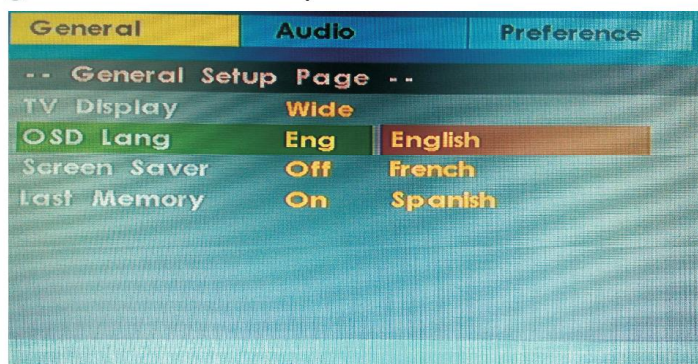

- General Setup Page
- AUDIO Setup
- Preference Page

2. Press the direction key ▼ or ▲ on the System Setup page and move the cursor to the selected item.. Press OK to confirm the item selected. Use ▼ or ▲ to adjust and use ◀ to return to the previous item.

3. On the System Setup page press either D.SETUP or MENU to exit.

● 1. General Setup

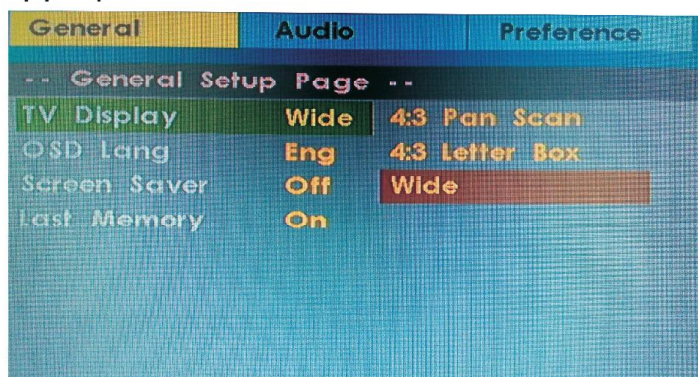

a) **OSD Language** - Choose the language for the operating system. Select from: English • French • Spanish.

b) TV Display

PS: The screen will display the picture in 4:3 ratio leaving a black border to either side of the picture.

LB: The screen will display the picture in a more suitable 16:9 ratio which is more appropriate for this model.

c) Last Memory: Press to change Memory Played from On to Off.

● DVD MODE

● 2.AUDIO SETUP

In this menu you adjust Downmix.

a) downmix: Press ◀ or ▶ button to adjust the downmix setting

You can select two different audio outputs:LT/RT,STEREO.

The Audio Out description of each selection is shown in the table below.

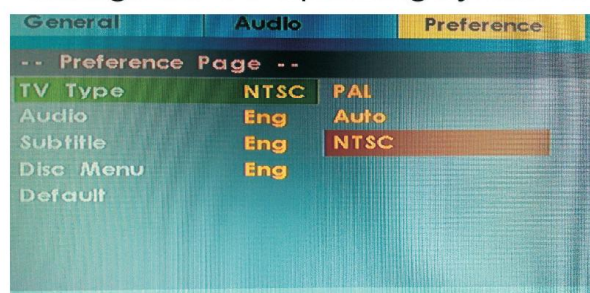

● 3. Preference Setup

Note: The languages selected in this section can only be set when the TV is not receiving broadcast transmissions and is not playing a DVD or CD. If the desired language does not exist for the DVD you wish to play then the default language will automatically be selected.

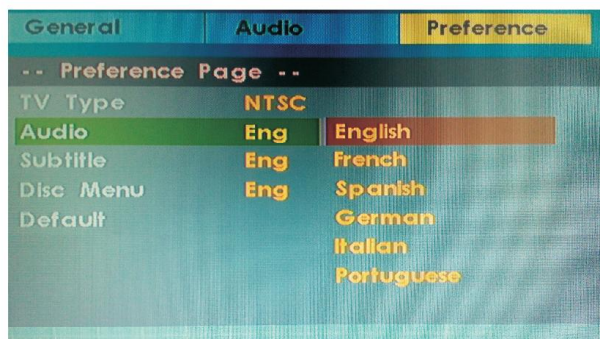

Within this menu you can adjust a) TV Type (Pal, NTSC, Auto),
b) Audio, c) Subtitle, d)Disc Menu, e)Default.

a) TV Type - Change the TV Operating system to suit the playback type.

● DVD MODE

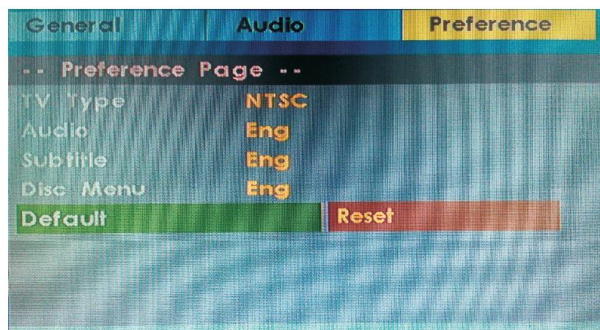

b) **Audio Language** - Choose the language for playing of disks - subject to the DVD being in one of the languages listed. Select from: English • French • Spanish • German • Italian • Portuguese.

c) **Subtitle Language** - Choose the language for on screen subtitles. Subject to the DVD having this feature in one of the languages listed. Select from: English • French • Spanish • German • Italian • Portuguese.

d) **Disc Menu** - Choose the language for playing disks - subject to the DVD being in one of the languages listed. Select from: English • French • Spanish • German • Italian • Portuguese.

e) **Default Setting** - Press the OK button to reset the factory default.

● 4. Basic Operation in DVD Mode

Press the key **SOURCE** on the remote control or the front panel to switch to DVD Mode. When the screen displays the DVD logo, put the disc in the slot loader, or put the SD card or Memory Stick into the appropriate slot.

This unit can identify different disk formats as the display in the left corner and the screen will automatically display the disk type in operation.

DVD disk formats which are compatible: CD, CD-R, CD-RW, MP3, MP4, VCD, DVD, DVD+/-R, DVD+/-RW.

● DVD MODE

● USB play

a) JPEGFILE Decode and Play

(i) JPEG is a universal format for displaying digital pictures on a CD. Due to the compression ratio many pictures can be stored in this format. When inserting a CD with JPEG files into the DVD slot, the unit will permit all the images to be displayed.

(ii) Normal Picture Play. Insert the JPEG format disk, the memory stick and the unit will search the catalogues, and start by displaying the first picture of the first catalogue.

(iii) Reads the pictures in order and displays them on screen.

b) To play a Disk

Insert the disk into the slot loader and the disk will play automatically. When the disk is playing, the disk type will be identified on the display. Use either the remote control or the unit itself to Stop or Play etc.

c) USB Operation

Press the **USB** button to switch between DISC or USB Mode.

Press the key marked ◀ or ▶ on either the unit or the remote control to select either Audio or Video and press OK to confirm. The unit will now play the file you require in the correct mode.

Note:

(i) If the display shows 'No Disc' then insert the disk in the DVD loader, insert the USB reader.

(ii) When inserting an USB reader remember to press the button marked ▲ to restore setting before doing so or it will not play.

(iii) If when inserting Memory Stick into the USB, it does not read, do the following. Switch the Power Off for at least 30 seconds before switching On again.

(iv) This unit reads audio and video files recorded onto USB Memory Sticks. USB 2.0 version only.

Caution:

When you turn the unit On and Off there must always be an interval of at least 30 seconds or normal working may be affected.

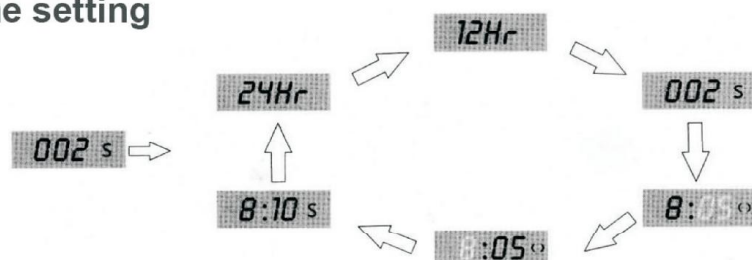

If any object other than a disk is pushed into the unit please have it checked by a qualified technician or repairer.

This unit is High Voltage - Do not open the case yourself. Please refer any problems to the retailer or to a professional technician.

CONSUMER INFORMATION

This product may contain substances that can be hazardous to the environment if not disposed of properly. Electrical and electronic equipment should never be disposed of with general household waste but must be separately collected for their proper treatment and recovery.

The-crossed out bin symbol, placed on the product, reminds you of the need to dispose of the product correctly at the end of its life. In this way you will assist in the recovery, recycling and re-use of many of the materials used in this product.

Where possible recycle your packaging.

With your help it is possible to reduce the amount of electrical and electronic waste ending up in landfill and to improve quality of life by preventing the release of potentially hazardous substances into the environment.

Invisua Limited is delighted to support the WEEE directive (Waste Electrical and Electronic Equipment) and is registered with the Environment Agency.

Correct Disposal of this Equipment (Waste Electrical & Electronics Equipment)

This marking shown on the product or its literature, indicates that it should not be disposed of with other household waste at the end of its working life. To prevent any possible harm to the environment or human health from uncontrolled waste disposal, please separate this and recycle it responsibly.

Householders should contact either the retailer they purchased from or their local waste authority for details how to dispose of this item safely.

This item has been tested by our Quality Control Inspectors and has been thoroughly checked and registered as working efficiently before leaving the factory.
