

## COHH-1 Headphone holder with padded cradle and adjustable angle

Owner's Manual

### Introduction

Thank you for choosing the Auray COHH-1 Headphone Holder.

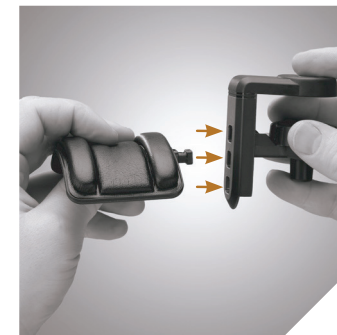

This versatile headphone holder has a sturdy adjustable locking clamp with an adjustable angle making it compatible with most vertical and horizontal surfaces up to 1.4 inches (35.5 mm) thick. Durable ABS plastic construction with a threaded locking clamp ensures that your headphones remain in place without slipping. The padded leatherette cradle supports one pair of full-sized headphones.

### To adjust the clamp:

If necessary, you can adjust the clamp to a different position than the way it shipped.

Unlock the cradle by moving the tab on the locking knob (as pictured) and pushing the entire locking knob toward the fixed head of the clamp.

Select one of the three holes and insert the peg of the cradle completely through the hole so that the cradle is flush against the clamp.

The hole closest to the fixed head of the clamp is suitable for use with a thin edge; the third for a thicker edge or diameter.

### Mounting options

Hold the cradle in place at the appropriate angle for attaching to a desktop or mic stand. Slide the locking knob over the peg until it snaps into place.
