

## DUAL STRAP KIT INSTRUCTIONS

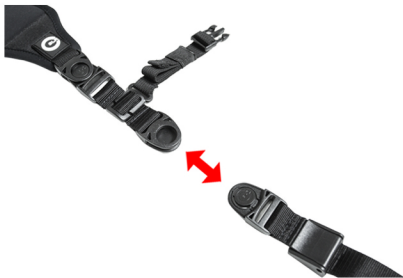

1. Place the back pad and the sternum strap on a flat surface. Make sure the Custom SLR logos are facing forward.

2. Unbuckle the sternum strap.

3. Take the two Split Strap pads and connect them to the top of the sternum strap.

4. Take the Glide Strap attachments and connect the non-adjustable ends to the bottom of the sternum strap.

5. Attach the remaining ends of the Split Strap pads to the top of the back pad.

6. Attach the adjustable ends of the Glide Strap attachments to the bottom of the back pad.

7. This is how the back pad will look when properly connected.

8. After adjusting the strap length to fit comfortably, roll up the excess strap and tuck it into the strap holder.
