3 Ft. Coiled Remote Release

Instructions

Features:

This cord allows a camera to be triggered from a distance up to 3 ft away.

Installing the Cord

- Plug the cord into the remote release socket on the camera. Please refer to the instruction manual for the location.

Using the Cord

- **Momentary Position:** Slide the collar to the unlock position. Press the button in slightly and the camera will autofocus. Continue pressing the button in to release the camera.
- **Continuous Position:** Slide the collar to the lock position. The camera shutter will stay open (in the B position) or continue to make exposures until the collar is pushed towards the center to release the button.
