

# Epiphan AV.io SDI

Release 2.0.4  
October 26, 2015

# Terms and Conditions

This document, the Epiphan web site, and the information contained therein, including but not limited to the text, videos and images as well as Epiphan System Inc.'s trademarks, trade names and logos are the property of Epiphan Systems Inc. and its affiliates and licensors, and are protected from unauthorized copying and dissemination by Canadian copyright law, United States copyright law, trademark law, international conventions and other intellectual property laws.

Epiphan, Epiphan Video, Epiphan Systems, Epiphan Systems Inc., and Epiphan logos are trademarks or registered trademarks of Epiphan Systems Inc., in certain countries. All Epiphan product names and logos are trademarks or registered trademarks of Epiphan. All other company and product names and logos may be trademarks or registered trademarks of their respective owners in certain countries.

Copyright © 2015 Epiphan Systems Inc. All Rights Reserved.

THE SOFTWARE LICENSE AND LIMITED WARRANTY FOR THE ACCOMPANYING PRODUCT ARE SET FORTH IN THE INFORMATION PACKET OR PRODUCT INSTALLATION SOFTWARE PACKAGE THAT SHIPPED WITH THE PRODUCT AND ARE INCORPORATED HEREIN BY REFERENCE. IF YOU ARE UNABLE TO LOCATE THE SOFTWARE LICENSES OR LIMITED WARRANTY, CONTACT YOUR EPIPHAN REPRESENTATIVE FOR A COPY.

PRODUCT DESCRIPTIONS AND SPECIFICATIONS REGARDING THE PRODUCTS IN THIS MANUAL ARE SUBJECT TO CHANGE WITHOUT NOTICE. EPIPHAN PERIODICALLY ADDS OR UPDATES THE INFORMATION AND DOCUMENTS ON ITS WEB SITE WITHOUT NOTICE. ALL STATEMENTS, INFORMATION AND RECOMMENDATIONS ARE BELIEVED TO BE ACCURATE AT TIME OF WRITING BUT ARE PRESENTED WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED. USERS MUST TAKE FULL RESPONSIBILITY FOR THEIR APPLICATION OF ANY PRODUCTS.

## LIMITATION OF LIABILITY

UNDER NO CIRCUMSTANCES SHALL EPIPHAN BE LIABLE FOR ANY INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY OR OTHER INDIRECT DAMAGES THAT RESULT FROM THE USE OF, OR THE INABILITY TO USE, THIS PRODUCT OR THE INFORMATION CONTAINED IN THIS DOCUMENT OR PROVIDED ON EPIPHAN'S WEB SITE, EVEN IF EPIPHAN HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL EPIPHAN'S TOTAL LIABILITY TO YOU FOR ALL DAMAGES, LOSSES, AND CAUSES OF ACTION RESULTING FROM YOUR USE OF THIS PRODUCT, WHETHER IN CONTRACT, TORT (INCLUDING, BUT NOT LIMITED TO, NEGLIGENCE) OR OTHERWISE, EXCEED THE AMOUNTS YOU PAID TO EPIPHAN DURING THE MOST RECENT THREE-MONTH PERIOD IN CONNECTION WITH AMOUNTS WHICH YOU PAID FOR USING THIS PRODUCT.

INFORMATION AND DOCUMENTS, INCLUDING PRODUCT SPECIFICATIONS, PROVIDED IN THIS DOCUMENT OR THE EPIPHAN WEB SITE ARE PROVIDED "AS IS". SPECIFICALLY, BUT NOT WITHOUT LIMITATION, EPIPHAN DOES NOT WARRANT THAT: (i) THE INFORMATION IS CORRECT, ACCURATE, RELIABLE OR COMPLETE; (ii) THE FUNCTIONS CONTAINED ON THE EPIPHAN WEB SITE WILL BE UNINTERRUPTED OR ERROR-FREE; (iii) DEFECTS WILL BE CORRECTED, OR (iv) THIS WEB SITE OR THE SERVER(S) THAT MAKES IT AVAILABLE ARE FREE OF VIRUSES OR OTHER HARMFUL COMPONENTS. EPIPHAN SPECIFICALLY DISCLAIMS ALL REPRESENTATIONS, WARRANTIES, AND CONDITIONS, EITHER EXPRESS, IMPLIED, STATUTORY, BY USAGE OF TRADE OR OTHERWISE INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, TITLE, SATISFACTORY QUALITY OR FITNESS FOR A PARTICULAR PURPOSE.

For additional terms and conditions, please refer to additional sections in this document.

---

# Thank you for choosing Epiphan Video!

At Epiphan Video, product function and quality are our top priority. We make every effort to make sure that our products exceed your expectations.

## Product feedback

---

Your feedback is important! We regularly contact our customers to ensure our products meet your performance and reliability requirements. We strive to continually enhance our products to accommodate your needs. Please let us know how you think we can improve our products by emailing your suggestions to [info@epiphan.com](mailto:info@epiphan.com).

## Specifications

---

Go to the [USB Video Grabbers](#) page of the Epiphan Video website to get the most recent product specifications and additional information about AV.io SDI.

## Warranty

---

All Epiphan Video products are provided with a 100% return to depot warranty for one year from the date of purchase.

## Technical support

---

Epiphan's products are backed by our professional support team. If you are having issues with your product, please gather details about your system and contact our team by:

- E-mailing [support@epiphan.com](mailto:support@epiphan.com)
- Live chat via the link on our [support site](#)
- Phone toll free at 1-877-599-6581 or call +1 613-599-6581

Be sure to include as much information about your problem as possible, including:

- Problem description •
- Details of the video or audio source (type, resolution, refresh rate, etc.)
- Product serial number
- Your operating system and version number

# Firmware 2.0.4 release notes

Firmware 2.0.4 is the inaugural release for AV.io SDI, bringing the effortless, high-quality video capture experience from AV.io HD to SDI cameras and professional video mixing consoles.

## Overview

---

AV.io SDI is the easiest SDI capture card you'll ever use. It doesn't need any special drivers installed on your computer – plug it in to your USB port and start using it right away. It's as simple as using a webcam! Windows, Mac and Linux operating systems automatically detect AV.io SDI ensuring compatibility with your favorite software, including Skype, Wirecast and QuickTime.

---

# Quickstart

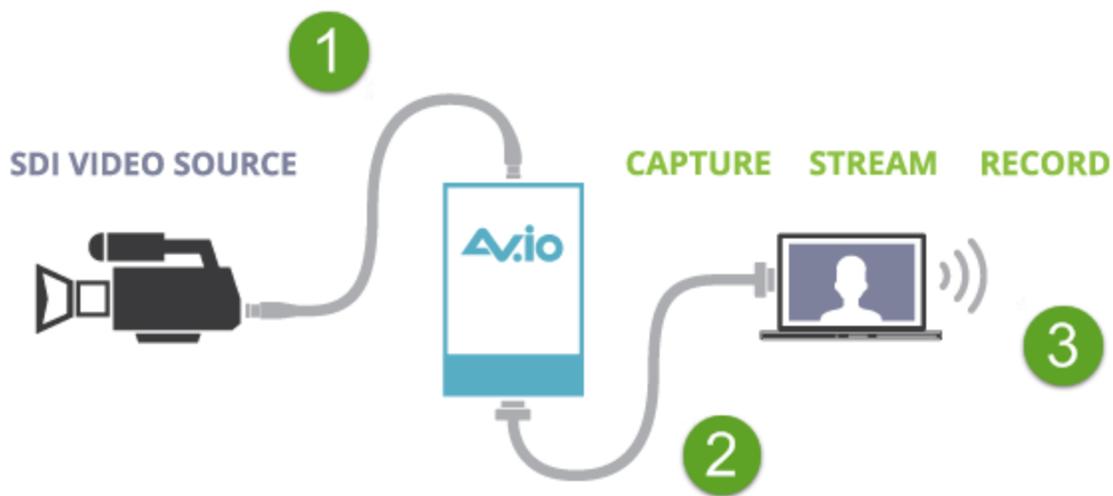

Setting up your AV.io SDI device to capture live video and audio content couldn't be easier!

Before you begin the connection process, you will require:

1. A 3G-SDI, HD-SDI or SD-SDI video source (with or without audio)
2. Your AV.io SDI device
3. A capture computer, laptop or notebook
4. A USB 3.0 cable (included with purchase) to connect to your AV.io SDI to your capture computer
5. An SDI cable (included with purchase) to connect your video source to your AV.io SDI

Once you have these things ready to go, you can now begin the simple process of hooking up your AV.io SDI so you can start capturing!

To connect your AV.io SDI for capture:

1. Connect your AV.io SDI device to your video source
2. Connect your AV.io SDI device to your computer
3. Open your favorite third-party application, select AV.io SDI from the list of available cameras and start capturing!

And that's it! No drivers to install and no extensive set-up! Just connect the cables and you're ready to go!

# Getting started

Welcome and thank you for buying Epiphan Video’s AV.io SDI!

This guide contains all the information necessary to successfully use AV.io SDI to quickly and easily capture live video content without any configuration – simply connect the cables and you’re ready to go!

This guide starts off by jumping right into it by showing you how to start capturing video, then we’ll take you through how AV.io SDI works, followed with some technical reference material, and we’ll conclude with a walkthrough of some optional video capture configuration.

Let’s get started!

## What's In The Box?

Your AV.io HD product contains everything you need to easily capture live video content with minimal setup. Your purchase includes the following:

AV.io SDI video grabber	 A blue cylindrical video grabber device with a silver base. The front face features the 'AV.io SDI' logo in white and the 'epiphan video' logo at the bottom.	Your video capture device!
SDI cable (0.5 m)	 A black SDI cable with a BNC connector on one end and a standard SDI connector on the other.	Connects an SDI source to your AV.io SDI.

<p>USB 3.0 cable (1 m)</p>		<p>The USB 3.0 cable connects your AV.io HD video grabber with your computer's USB 3.0 or 2.0 port.</p>
----------------------------	---	---

## System requirements

System requirements are the barebones technical essentials your computer needs to work with AV.io SDI. System requirements to use AV.io SDI include:

<b>Video source</b>	A 3G-SDI, HD-SDI or SD-SDI video source.
<b>Video capture workstation</b>	Any computer (laptop/desktop/other format) with: <ul style="list-style-type: none"> <li>• a compatible USB 3.0 host controller for SuperSpeed operation; or,</li> <li>• a USB 2.0 controller</li> </ul>
<b>Video capture workstation operating system</b>	Windows 7, Windows 8.1, Windows 10 Mac OS X 10.10 and up Linux distribution with kernel 3.5.0 or higher
<b>Processor frequency</b>	Minimum recommended value: 2.4 GHz
<b>RAM</b>	Minimum recommended value: 4 GB

## Technical specifications

Technical specifications for AV.io SDI are included in the table below.

<b>Connectors</b>	BNC style SDI connector USB standard B type	
<b>Input</b>	SDI (3G-SDI, HD-SDI, SD-SDI) with BNC-style connector	
<b>Audio (SDI) Input</b>	16-bit and 24-bit PCM encoded audio at 48 kHz	
<b>Audio (UAC) output</b>	16-bit 48 kHz stereo audio	
<b>Output color space</b>	YUV 4:2:2	
<b>Supported output resolutions (at 15, 30 or 60 fps)</b>	640×360 960×540 1920×1080	640×480 1280×720

---

<b>Capture delay</b>	Near-zero latency, although certain third-party applications may contribute to delay
<b>OS support (32-bit and 64-bit)</b>	Windows 7, Windows 8.1, Windows 10 Mac OS X 10.10 and up Linux distribution with kernel 3.5.0 or higher
<b>USB support</b>	USB 3.0 and 2.0

# Hardware

This section describes the physical features of your AV.io SDI, including diagrams and hardware feature descriptions.

Topics covered include:

- [Hardware diagrams](#); and,
- [Indicator LED details](#)

## Hardware diagrams

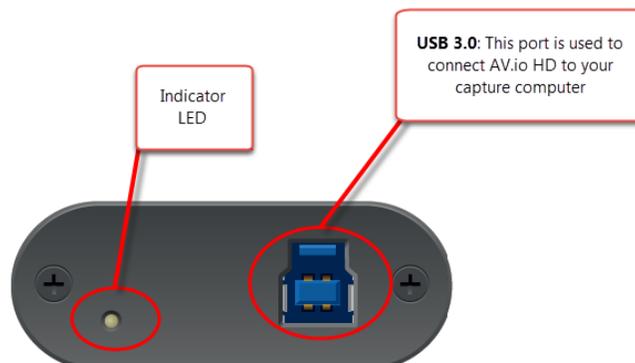

Your AV.io SDI device includes an input, an output and an indicator light.

Input/output ports and indicator lights are identified and explained in the top and bottom cap view AV.io SDI images below. Indicator light details are explained in the proceeding section.

### Top cap view:

### Bottom cap view:

## Indicator LED details

The color and action of the indicator LED depends on whether you are connected by USB 3.0 or USB 2.0. For maximum performance, always use a USB 3.0 port and the included USB 3.0 cable. Note that frame capture rate will be reduced when connected via USB 2.0.

If you're not sure if your controller is USB 3.0 or USB 2.0, plug AV.io SDI into the capture computer and look at the indicator LED. After initial boot up (red LED), blue is used for USB 3.0 and green is used for USB 2.0:

Blue LED means USB 3.0

Green LED means USB 2.0

Connection type/LED color	USB 3.0 connection	USB 2.0 connection
Solid red	<ul style="list-style-type: none"> <li>Firmware update in progress</li> <li>AV.io SDI initializing</li> </ul>	<ul style="list-style-type: none"> <li>Firmware update in progress</li> <li>AV.io SDI initializing</li> </ul>
Solid green	-	USB 2.0 connection active
Blinking green	-	Video and/or audio transferring successfully
Solid blue	USB 3.0 connection active	-
Blinking blue	Video and/or audio transferring successfully	-

# Capture

Setting up your AV.io SDI device to capture live video content couldn't be easier!

Before you begin the connection process, you will require:

1. A 3G-SDI, HD-SDI or SD-SDI video source
2. Your AV.io SDI device
3. A capture computer, laptop or notebook
4. A USB 3.0 cable (included with purchase) to connect to your AV.io SDI to your capture computer
5. An SDI cable (included with purchase) to connect your video source to your AV.io SDI

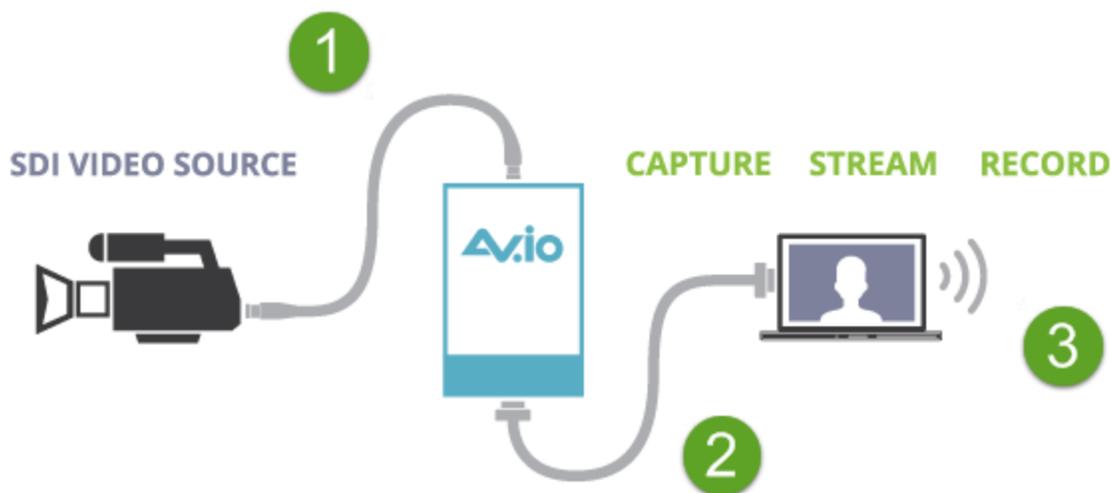

Once you have these things ready to go, you can now begin the simple process of hooking up your AV.io SDI so you can start capturing!

## Set up your AV.io SDI for capture

---

Connecting your AV.io SDI to your capture computer is simple and is accomplished in three easy steps.

To connect your AV.io SDI for capture:

1. Connect your AV.io SDI device to your video source
2. Connect your AV.io SDI device to your desktop computer, laptop or notebook
3. Open your favorite third-party application, select AV.io SDI from the list of available cameras and start capturing!

And that's it! No drivers to install and no extensive set-up! Just connect the cables and you're ready to go!

## How AV.io SDI works

---

Once you're ready to start capturing, you'll need either a built-in or third-party application to capture video and audio content with AV.io SDI.

The application communicates with AV.io SDI and negotiates a **frame rate** (frequency at which frames in a video sequence are displayed) and **frame size** (size of a single video frame in pixels). Higher frame rate means smoother video capture while frame size determines the aspect ratio of the video output as well as its size and degree of crispness.

With the help of AV.io SDI, the content from your video source is automatically configured and captured on your computer through your selected application. If the application requests a frame size that is smaller or larger than your video source, AV.io SDI automatically scales the video for you. For consistent output, audio is automatically resampled to 16-bit 48 kHz stereo audio.

No configuration required!

## Resolutions, capture rates and aspect ratios

The **resolution** (also known as frame size or display mode) of a video signal, digital image, TV screen, computer monitor or other display device is a count of the number of pixels displayed horizontally and vertically. For example the resolution 1920×1080 (which is 1080p) creates an image that is 1920 pixels wide and 1080 pixels tall.

AV.io SDI generates a list of the following possible resolutions for your capture application to select for output display:

<b>640×360</b>	<b>960×540</b>	<b>1920×1080</b>
<b>640×480</b>	<b>1280×720</b>	

Captured video content is output to your application at **15, 30 or 60 frames per second** (your application chooses one of these frame rates) when captured over USB 3.0.

The **aspect ratio** of an image describes the proportional relationship between its pixel width and height. The resolution 1920×1080 (1080p) is quite a bit wider than it is tall. The ratio of its width to height is 16 to 9, represented as an aspect ratio 16:9.

AV.io SDI outputs resolutions in commonly supported aspects ratios, color-coded according to table of resolutions above and described in the table below:

<b>Aspect Ratio</b>	<b>Common Use</b>
<b>4:3</b>	Standard letterbox TV display and non-widescreen computer displays, SD-SDI resolution
<b>16:9</b>	Widescreen (HD) TV displays (1080p, 1080i, 720p etc)

## Automatic image scaling & audio resampling

If your source content is larger or smaller than the frame size chosen by the application, AV.io SDI automatically **scales your source** to match the desired frame size! No user configuration required!

AV.io SDI also automatically performs **audio resampling**, meaning that no matter the bit depth or frequency of audio through an HDMI audio source, AV.io SDI automatically resamples your audio so that your application gets a consistent audio sample rate and bit depth, even if you change the video source!

## Third-party applications

AV.io SDI uses pre-installed drivers on your OS (called **UVC drivers** and **UAC drivers**) to communicate with third-party applications and capture content. Due to AV.io SDI's use of UVC/UAC technology, there is no need for driver installation. Just like a webcam, your AV.io SDI device is immediately recognized as a camera device (like a web cam) and can be used to capture content via any UVC-compatible third-party application.

Third-party applications that work with AV.io SDI include, but are not limited to the following list. Try your favorite capture application!

Zero-install applications (included with your OS)		
 <b>Skype</b> (with Windows 8.1 and Windows 10)	 <b>Windows Camera app</b> (with Windows 8.1 and Windows 10)	 <b>Quicktime</b> (with Mac OS X)

Popular applications available for download		
 <b>Skype</b>	 <b>Wirecast</b>	 <b>Quicktime</b>
 <b>Adobe FMLE</b>	 <b>VLC media player</b>	

# Configuration options

Your AV.io SDI device is ready to use right out of the box; however, there is support for additional configuration should you need it. Changes can be made to your AV.io SDI's default settings and firmware updates can be applied via Epiphan's AV.io Config tool.

Detailed instructions on how to use AV.io Config can be found using the links below:

- [Install the AV.io Config tool](#)
- [Configure settings using AV.io Config tool](#)
- [Update firmware using the AV.io Config tool](#)

The AV.io Config tool allows you to change several settings to make changes to your video capture experience if necessary. Most users won't need to use this utility for anything other than firmware updates, but advanced users may find these tweaks help them get the most out of their AV.io SDI.

These settings include: **input signal resolution**, **aspect ratio preservation**, **audio pair selection** and **performance mode** .

## Input signal resolution (disabled by default)

---

When enabled, your AV.io SDI adds the exact resolution of your input signal to the list of supported output resolutions. This is the only way to enable 1:1 capture for special frame sizes. However it is important to note that the capture resolution is still dictated by the third-party application and this application can override any AV.io SDI custom capture settings. Also note that in selecting this mode, any change in input signal (programmatically or by connecting a different input) causes AV.io SDI to renegotiate its resolution with the application. This can cause an interruption in the captured stream.

## Preserve aspect ratio (enabled by default)

---

When enabled, your AV.io SDI preserves the aspect ratio of your input signal by adding black bars to the sides or top and bottom of the frame (only for cases when the application using the signal requests a frame size with a different aspect ratio). For example, with this option enabled, a 4:3 input signal gets black bars added to the sides of the image when viewed in an application that requests a 16:9 aspect ratio. With this option disabled, the 4:3 image is instead stretched to fit the full 16:9 size.

## Audio pair selection (disabled by default)

---

Your AV.io SDI can capture one of the (up to) 8 audio channel pairs provided over SDI. Use this option to allow your third party application to choose which audio pair to capture. By default, this is disabled and the first audio pair is captured.

## Performance mode (enabled by default)

---

When enabled, your AV.io SDI enters and exits system suspend mode (i.e. sleep) faster by disabling support for the Suspend/U3 USB power state. This means AV.io SDI starts working again faster after your computer wakes from a system suspend state, at the cost of increased power consumption. Disabling this setting is ideal in situations where power consumption needs to be monitored, such as battery preservation in laptops.

Now that you've learned what these settings do, you may want to [Configure settings using AV.io Config tool](#) or [Update firmware using the AV.io Config tool](#).

## Install the AV.io Config tool

---

Epiphan's AV.io Config tool is used for loading firmware updates on your AV.io SDI and for advanced settings changes.

You may install AV.io Config on the same computer(s) where you use AV.io SDI, or only on one computer for configuration. All firmware updates and settings changes are saved to the device and work without any software installed on the computer.

To install the AV.io Config tool, follow the directions below for your computer's Operating System.

### Windows

1. Download the AV.io Config package under the **Windows** heading on the AV.io SDI Downloads page on Epiphan's web site.
2. Extract all the files from the zip file (remember the location you're unzipping to).
3. Browse to the unzip folder and open the AV.io Config tool by double-clicking on **AVioConfig.exe**. (Depending on your local security settings, you may need to right-click and choose to run the file as an administrator).
4. AV.io Config starts! If your video grabber is connected to the computer by USB, it is detected.

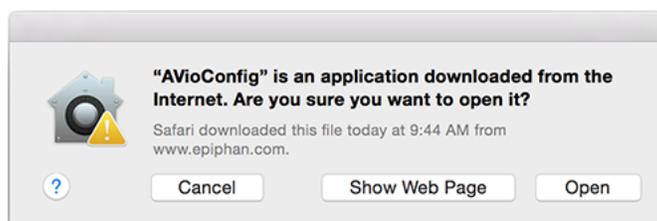

## Mac

1. Download the AV.io Config package under the **Mac OS X** heading on the AV.io SDI Downloads page on Epiphan's web site.
2. Double-click the downloaded file to open the disk image package.

3. If desired, drag the AVioConfig application to your desktop or another location where you will find it for future use.
4. Double-click the AVioConfig application icon to launch AV.io Config; a warning box appears.

5. Click **Open**.
6. AV.io Config starts! If you video grabber is connected to the computer by USB, it is detected.

## Linux

1. Download the AV.io Config package under the **Linux** heading on the AV.io SDI Downloads page on Epiphan's web site.
2. Untar and unzip the contents of the .tar.bz2 file (tar -xjvf can be used to untar and unzip in one command).
3. Browse (or change directories) to the unzip folder.
4. Either: Double-click the AV.io Config application icon or execute the AV.io Config application from the command line to launch AV.io Config (./AVioConfig).
5. AV.io Config starts! If you video grabber is connected to the computer by USB, it is detected.

## Configure settings using AV.io Config tool

Epiphan's AV.io Config tool gives advanced users the ability to change several settings to their video capture experience. The settings that can be changed include: Re-numerate input signal resolution, aspect ratio preservation, audio pair selection and performance mode. See [Configuration options](#)

To change the configurable settings with the AV.io Config tool:

1. If needed, install the AV.io Config tool. For details specific to your OS, see [Install the AV.io Config tool](#).
2. Connect your AV.io SDI device to your computer, laptop or notebook.
3. Open the AV.io Config tool.

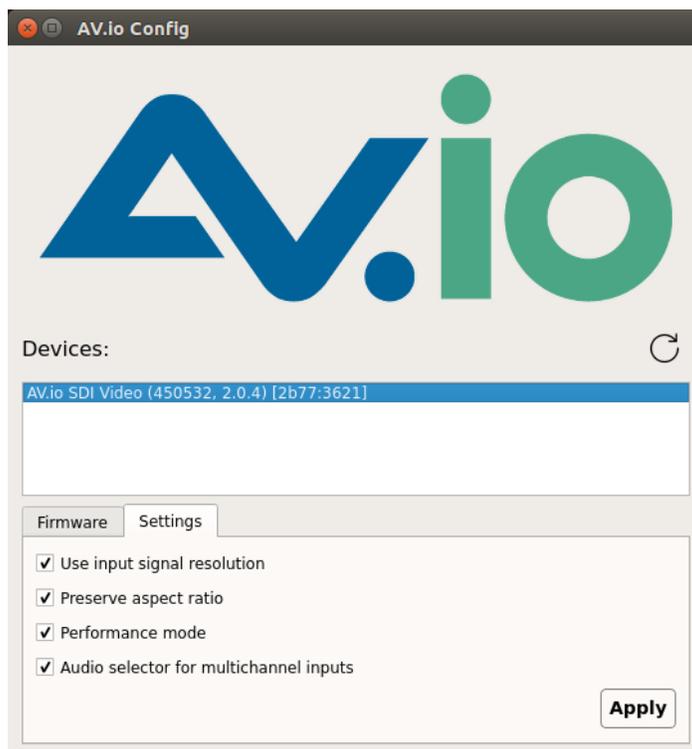

4. Select your AV.io SDI device from the list under the Devices heading.

If your video grabber is not displayed, press the Refresh icon to refresh the list of connected devices.

5. Click the **Settings** tab; the settings page appears.

6. Enable or disable the individual settings by clicking each checkbox according to your needs. See [Configuration options](#) for a description of each setting.

## Update firmware using the AV.io Config tool

From time-to-time Epiphan Video releases firmware updates for our video grabbers. If you [register your product](#) and agree to be notified of product updates, you'll receive an email when there is an AV.io SDI update available for download.

When new firmware is available, you can load this firmware onto your AV.io SDI using the AV.io Config tool and the steps below.

Attempting to update firmware while running virtual machines will result in firmware upgrade failure.

To update firmware using the AV.io Config tool:

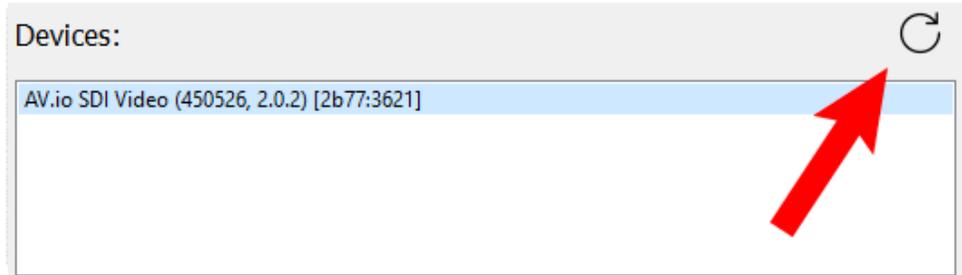

1. If you haven't already done so, download and install the AV.io Config tool. See [Install the AV.io Config tool](#).
2. Download the firmware update file from the Epiphan website, as described in your firmware update notification email.
3. Connect your AV.io SDI device to your computer, laptop or notebook.
4. Open the AV.io Config tool.

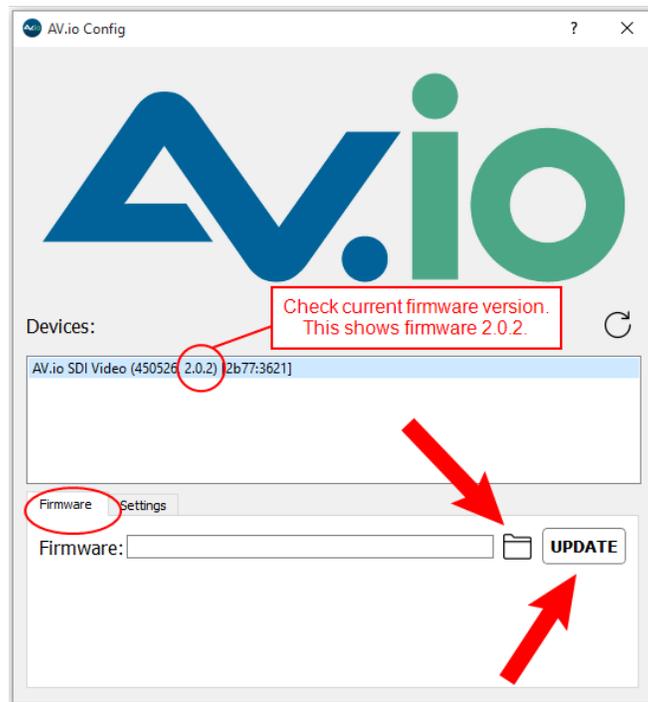

5. Select your AV.io SDI device from the list under the Devices heading.

If your AV.io SDI device is not displayed, press the Refresh icon to refresh the list of connected devices.

6. Using the diagram below, check the current firmware version of your AV.io SDI. If it is the same version as the new firmware you, there is no need to do the firmware update.
7. Click the **Firmware** tab

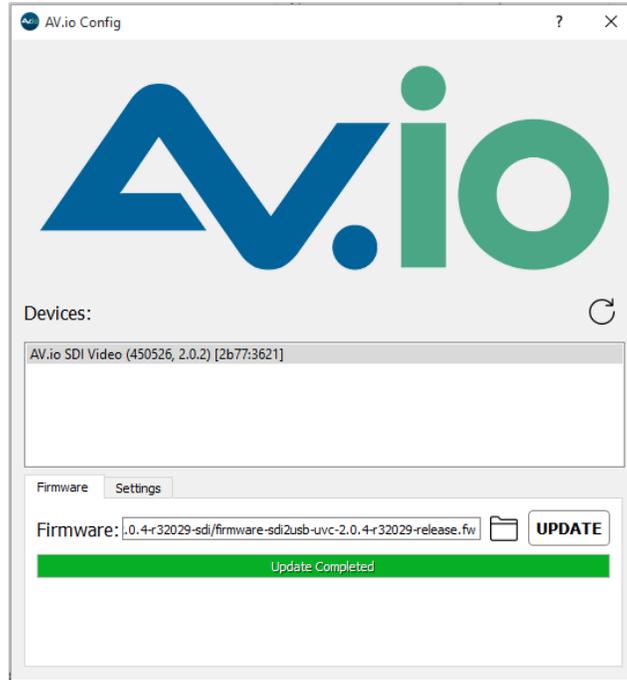

8. Click the **folder icon** to navigate to the saved location of the firmware, and click **Update** to update your video grabber to the selected firmware; an update bar appears and displays the progress of the update.

Do not disconnect your AV.io SDI at any point during the update process! Doing so may cause irrevocable errors and/or permanently damage the device.

- 9. When the update is finished the progress bar turns green and displays "Update Completed". You may now safely disconnect your AV.io SDI if needed.

When updating firmware on a Mac, the "Update Completed" text will not be displayed. The firmware upgrade is complete when the progress bar fills the width of the AV.io Config window and the window contents are no longer greyed out.

# Limitations and Known Issues

This section includes known issues or limitations that affect functionality or usability and ways that you can work around these limitations.

## Affecting all operating systems

- Disconnecting and reconnecting the USB 3.0 cable on an AV.io SDI device with an SDI splitter halts video capture.
  - **Workaround:** When possible, avoid this problem by not using a splitter. If a splitter is necessary, disconnect both the USB 3.0 cable and SDI splitter from the AV.io SDI device, then first reconnect the USB 3.0 cable before reconnecting the SDI cable between AV.io SDI and the splitter.
- Embedded audio from BlackMagic HDMI-SDI convertor can be distorted.
  - **Workaround:** If possible, use another convertor or capture without embedded audio.

## Affecting Windows

- Windows 7: The AV.io Config tool sometimes fails to display AV.io SDI in the device list despite showing up as an installed device on the computer's Device Manager, therefore occasionally preventing advanced configuration and firmware updates.
  - **Workaround:** Use AV.io Config on a different supported OS to configure AV.io SDI. Firmware updates and configuration changes are saved to the device. (Note that the AV.io SDI device still functions perfectly with the capture application on the original Windows 7 workstation despite possible issues with the AV.io Config tool.)
- Windows 7/8.1: The AV.io Config tool may display the AV.io SDI device more than once in the device list possibly causing user confusion.
  - **Workaround:** Simply press the refresh icon to refresh the device list; only one AV.io SDI device now displays properly.
- Windows 8.1: On rare occasions (< 5% of the time), captured video has a small vertical fluctuation (of a few pixels) or small artifacts in the lower right quadrant of the screen. This is noticeable right from the the beginning of capture.
  - **Workaround:** Simply disconnect and re-connect AV.io SDI's USB 3.0 cable to the capture computer.
- Windows 8.1 (with an Etron EJ188H USB 3.0 controller only): Video and audio capture fails with Windows Movie Maker.

- **Workaround:** If using a computer with this host controller, use a different capture application (like VLC), or upgrade to Windows 10.
- Windows 8.1 (with a Texas Instruments TSub USB 3.0 controller only): Audio capture fails with Windows Camera.
  - **Workaround:** If using a computer with this host controller, use a different capture application (like VLC), or upgrade to Windows 10.
- Windows 8.1/10 (with an ASMedia ADM1042 A USB 3.0 controller only): Video capture fails when the capture computer recovers from sleep mode, even if capture was stopped prior to sleep mode.
  - **Workaround:** Simply disconnect and re-connect AV.io SDI's USB 3.0 cable to the capture computer.
- Windows 8.1/10 (with an Etron USB 3.0 controller only): Firmware update fails with an error message. Retrying does not clear the message.
  - **Workaround:** Perform the firmware update on another computer (without an Etron USB host controller) or using another USB port on the same computer. Note that USB 2.0 can be used for firmware updates.

## Affecting Mac

- It is not possible to capture from AV.io SDI if a webcam is connected when using VLC media player 2.2.1 on a Mac (this is a VLC-specific bug).
  - **Workaround:** Disconnect the webcam, downgrade to an older version of VLC media player (ex: 2.1) or use a different capture application.
- Audio capture isn't available using VLC on a Mac.
  - **Workaround:** If audio capture is needed, use another capture application such as QuickTime.
- Sometimes video doesn't update (appears frozen) when using AV.io SDI as the video source for Skype video calls.
  - **Workaround:** Disconnect and reconnect the video grabber. If the problem persists, try another Mac computer or another communication tool. This problem appears to happen with regular web cams as well.

## Affecting Ubuntu

- Ubuntu 14.04 LTS: With the exception of the first capture after system reboot, the very first captured frame is always green.
  - **Workaround:** Remove the green frame in post-production editing. If streaming the captured video, begin streaming after the initial green frame as already been captured.

- Ubuntu 15.04 (with an Etron EJ168A USB 3.0 controller only): Video cannot be resumed if stopped during a Skype call.
  - **Workaround:** Do not stop video during the call, if this is not possible or happens accidentally, disconnect and reconnect the device. You may need to restart the video call.
- Ubuntu 15.04 Video capture fails when the capture computer recovers from sleep mode, even if capture was stopped prior to sleep mode.
  - **Workaround:** Simply disconnect and re-connect AV.io SDI's USB 3.0 cable to the capture computer.

## Affecting Chromebook

- Google Chrome OS v43.0.2357.125 (64 bit): When using Chromebook Apps Clipchamp and WebRTC, AV.io SDI is not detected as a valid audio device.
  - **Workaround:** Use Clipchamp and WebRTC for capturing video only, or use a different Chromebook app to capture both video and audio, such as Screencastify or MediaCore Capture.

# Software and Documentation License

ATTENTION: THE SOFTWARE AND DOCUMENTATION PROVIDED UNDER THIS AGREEMENT ARE BEING LICENSED TO YOU BY EPIPHAN SYSTEMS INC. ("LICENSOR") AND ARE NOT BEING SOLD. THIS AGREEMENT CONTAINS LIMITATIONS ON REPRESENTATIONS, WARRANTIES, CONDITIONS, REMEDIES, AND LIABILITIES THAT ARE APPLICABLE TO THE SOFTWARE AND DOCUMENTATION.

## Epiphan Systems Inc. Software License

IMPORTANT: BEFORE DOWNLOADING, INSTALLING, OR USING THE SOFTWARE AND DOCUMENTATION, PLEASE CAREFULLY READ THIS AGREEMENT WHICH CONTAINS THE TERMS AND CONDITIONS UNDER WHICH YOU ARE ACQUIRING A LICENSE TO USE THE SOFTWARE AND DOCUMENTATION. IF YOU DO NOT ACCEPT THE TERMS AND CONDITIONS OF THIS AGREEMENT PLEASE DO NOT DOWNLOAD, INSTALL, OR USE THE SOFTWARE AND DOCUMENTATION AND PROMPTLY RETURN OR DESTROY THE SOFTWARE AND DOCUMENTATION. IF YOU DOWNLOAD, INSTALL, OR USE THE SOFTWARE AND/OR DOCUMENTATION, YOU WILL HAVE ACCEPTED AND AGREED TO THESE TERMS AND CONDITIONS. THE SOFTWARE AND DOCUMENTATION ARE ALSO PROTECTED BY COPYRIGHT LAWS AND INTERNATIONAL COPYRIGHT TREATIES, AS WELL AS OTHER INTELLECTUAL PROPERTY LAWS. IF YOU ARE AN AGENT OR EMPLOYEE OF AN ENTITY, YOU REPRESENT AND WARRANT THAT (I) THE INDIVIDUAL ACCEPTING THIS AGREEMENT IS DULY AUTHORIZED TO ACCEPT THIS AGREEMENT ON SUCH ENTITY'S BEHALF AND TO BIND SUCH ENTITY, AND (II) SUCH ENTITY HAS FULL POWER, CORPORATE OR OTHERWISE, TO ENTER INTO THIS AGREEMENT AND PERFORM ITS OBLIGATIONS UNDER THIS AGREEMENT.

**1. Definitions:** In this Agreement:

**"Agreement"** means this Epiphan Software License;

**"Documentation"** means the technical publications delivered to You with the Software relating to the installation and operation of the Software, such as reference, user, installation and technical guides and release notes;

**"Epiphan"** means Epiphan Systems Inc.;

**"Software"** means the Licensor binary and/or bytecode software programs that (i) are made available to You for download after acceptance of this Agreement, (ii) are packaged with this Agreement, or (iii) pre-installed on Epiphan products, or (iv) embed this Agreement in their installer(s) and which are installed after acceptance of this Agreement, and which binary and/or bytecode software programs include any Documentation; and

**"You" or "Your"** means the individual acquiring the Software license or any entity on whose behalf such individual is acting. In the case of an entity, "You" includes any entity that by majority voting interest controls, is controlled by, or is under common control with You.

**2. Grant of Software License:** Subject to the terms and conditions of this Agreement, Licensor grants You a non-exclusive, non-transferable, non-sublicensable, internal license to use a reasonable number of copies of the Software. All copies of the Software made by You shall include all trademarks, copyright notices, restricted rights legends, proprietary markings and the like exactly as they appear on the copy of the Software originally provided to You. No other rights in the Software or Documentation are granted to You.

---

**3. Open Source Software:** Binary, bytecode and source code versions of certain open source software packages may be embedded in or distributed with the Software (“Open Source Software”). If a separate license agreement for an item of open source software is: delivered to You with the Software; included in the download package for the Software; referenced in any material (including the Documentation) that is included in the download or distribution package for the Software; or listed at [www.epiphan.com/opensource](http://www.epiphan.com/opensource), then such open source software shall be Open Source Software and such separate license agreement shall govern Your use of that item or version of such open source software. The Open Source Software may include free software (i.e. software licensed under the GNU Lesser General Public License or other free software licenses) for which the applicable free software license may also require that the source code for such free software be made available to those receiving only executable versions of such free software. If the source code for any free software distributed with the Software is not provided with the Software, then upon request, within a three (3) year period from the original receipt of such Open Source Software from Licensor, for a fee that shall not exceed Licensor’s costs associated with the shipping of the source code for such free software, Licensor will provide a copy of the source code for such free software to You.

**4. Restrictions:** The terms set forth in this Section 4 shall constitute conditions to the licenses granted in Section 2. You shall not reverse engineer, disassemble, reverse translate, decompile or in any other manner decode the Software except to the extent the Software is distributed with any Open Source Software that prohibits the imposition of such a restriction or to the extent the foregoing restriction is expressly prohibited by applicable law notwithstanding a contractual obligation to the contrary. You acknowledge and agree that no rights in respect to the source code of the Software are granted to You. You acknowledge and agree that the rights in respect to use of the Software and Documentation are granted only for use in conjunction with Epiphan hardware. You shall not distribute, lease, rent, grant a security interest in, assign, or otherwise transfer the Software except as expressly provided in this Agreement. You shall not modify or create any derivatives works of the Software or merge all or any part of the Software with another program. You shall not use the Software or make the Software available to any third parties as part of any service bureau, time sharing service, application service provider offering, software-as-a-service offering or any other managed service offering. You shall not disclose any performance, benchmarking, or feature-related information about the Software. You further agree not to disclose, transfer or otherwise provide to any third party any portion of the Software, except as expressly permitted herein.

**5. Disclaimer of Warranties:** Licensor does not make any representations or provide any warranties or conditions in respect to the Software. **EXCEPT FOR ANY WARRANTIES THAT MAY BE PROVIDED IN ANY COMMERCIAL AGREEMENT BETWEEN YOU AND LICENSOR, THE SOFTWARE AND DOCUMENTATION ARE PROVIDED “AS IS”, WITHOUT ANY REPRESENTATIONS, CONDITIONS, OR WARRANTIES OF ANY KIND. WITHOUT LIMITATION, LICENSOR AND ITS LICENSORS, SUPPLIERS, SUBCONTRACTORS AND DISTRIBUTORS DISCLAIM ANY EXPRESS OR IMPLIED REPRESENTATIONS, CONDITIONS, AND/OR WARRANTIES OF MERCHANTABILITY, MERCHANTABILITY, NON-INFRINGEMENT, DURABILITY, TITLE, SATISFACTORY QUALITY, OR FITNESS FOR A PARTICULAR PURPOSE WHETHER ARISING BY STATUTE, COURSE OF DEALING, USAGE OF TRADE, OR OTHERWISE. EXCEPT AS OTHERWISE EXPRESSLY PROVIDED IN ANY COMMERCIAL AGREEMENT, THE ENTIRE RISK OF THE USE OF THE SOFTWARE AND DOCUMENTATION SHALL BE BORNE BY YOU. EXCEPT AS OTHERWISE EXPRESSLY PROVIDED IN ANY COMMERCIAL AGREEMENT, NEITHER LICENSOR NOR ANY OF ITS LICENSORS, SUPPLIERS, SUBCONTRACTORS AND/OR DISTRIBUTORS MAKE ANY REPRESENTATIONS OR PROVIDE ANY CONDITIONS AND/OR WARRANTIES ABOUT THE SUITABILITY OF THE SOFTWARE AND/OR DOCUMENTATION OR ABOUT ANY INFORMATION AND/OR DATA THAT MAY BE PROCESSED BY OR MADE AVAILABLE USING THE SOFTWARE.**

---

**6. LIMITATION OF LIABILITY: NEITHER LICENSOR NOR ANY OF ITS LICENSORS, SUPPLIERS, SUBCONTRACTORS AND/OR DISTRIBUTORS SHALL HAVE ANY LIABILITY TO YOU OR ANY OTHER PERSON OR ENTITY FOR ANY DAMAGES ARISING FROM THIS AGREEMENT, RELATING TO THE SOFTWARE OR DOCUMENTATION, OR RELATING TO ANY SERVICES PROVIDED TO YOU BY LICENSOR (INCLUDING ITS LICENSORS, SUPPLIERS, SUBCONTRACTORS AND/OR DISTRIBUTORS) IN RELATION TO THE SOFTWARE AND/OR DOCUMENTATION FOR ANY INDIRECT, RELIANCE, INCIDENTAL, SPECIAL, PUNITIVE, EXEMPLARY OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF REVENUE OR PROFIT, LOSS OF OR DAMAGE TO DATA, BUSINESS INTERRUPTION, LOSS OF DATA, REPLACEMENT OR RECOVERY COSTS, OR OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER ARISING FROM CONTRACT, EQUITY, TORT (INCLUDING NEGLIGENCE OR STRICT LIABILITY) OR ANY OTHER THEORY OF LIABILITY, EVEN IF LICENSOR (INCLUDING ITS LICENSORS, SUPPLIERS, SUBCONTRACTORS AND DISTRIBUTORS) HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR THEY ARE FORESEEABLE. THE LIMITATIONS IN THIS SECTION SHALL APPLY WHETHER OR NOT THE ALLEGED BREACH OR DEFAULT IS A BREACH OF A FUNDAMENTAL CONDITION OR TERM OR FUNDAMENTAL BREACH. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THESE LIMITATIONS MAY NOT APPLY TO YOU. IN NO EVENT SHALL THE TOTAL CUMULATIVE LIABILITY OF LICENSOR (INCLUDING ITS LICENSORS, SUPPLIERS, SUBCONTRACTORS AND DISTRIBUTORS) TO YOU OR ANY OTHER PERSON OR ENTITY FOR ANY DAMAGES ARISING FROM THIS AGREEMENT, RELATING TO THE SOFTWARE, DOCUMENTATION AND/OR RELATING TO ANY SERVICES PROVIDED TO YOU BY LICENSOR (INCLUDING ITS LICENSORS, SUPPLIERS, SUBCONTRACTORS AND DISTRIBUTORS) IN RELATION TO THE SOFTWARE AND/OR DOCUMENTATION, EXCEED THE LICENSE FEES PAID BY YOU FOR THE SOFTWARE.**

**THE DISCLAIMER OF REPRESENTATIONS, WARRANTIES AND CONDITIONS AND LIMITATION OF LIABILITY CONSTITUTE AN ESSENTIAL PART OF THIS AGREEMENT. YOU ACKNOWLEDGE THAT BUT FOR THE DISCLAIMER OF REPRESENTATIONS, WARRANTIES AND CONDITIONS AND LIMITATION OF LIABILITY, NEITHER LICENSOR NOR ANY OF ITS LICENSORS OR SUPPLIERS WOULD GRANT THE RIGHTS GRANTED IN THIS AGREEMENT.**

**7. Term and Termination:** This Agreement shall continue for as long as You use the Software, however, it may be terminated sooner as provided in this Section 7. You may terminate this Agreement by destroying all copies of the Software and Documentation under Your control and providing certification of such destruction to Licensor or by returning the Software to Licensor. Licensor may terminate this Agreement immediately by providing You with written notice if: (a) You are in material breach of any provision of this Agreement, which breach, if capable of being cured, is not cured within thirty (30) days after Licensor gives You written notice thereof; or (b) You have committed a non-curable material breach of this Agreement. Upon termination You shall destroy all copies of the Software. In addition to this Section, the Sections entitled Definitions, Disclaimer of Warranties, Limitation of Liability, Title, High-Risk Activities, Intellectual Property, and General shall continue in force even after any termination of this Agreement. No termination of this Agreement will entitle You to a refund of any amounts paid by You to Licensor or affect any obligations You may have to pay any outstanding amounts owing to Licensor. Upon any termination by Licensor, You shall destroy all copies of the Software and Documentation under Your control and certify such destruction to Licensor.

**8. Support and Updates:** This Agreement does not grant You the right to any updates or enhancements of the Software or the right to receive any technical support for the Software. Such updates and other technical support services, if available, may be purchased separately from Licensor. Use of any updates or

---

enhancements to the Software provided pursuant to any technical support You may procure from Licensor shall be governed by the terms and conditions of this Agreement. Licensor reserves the right at any time not to release or to discontinue the release of any Software and to alter prices, features, specifications, capabilities, functions, licensing terms, release dates, general availability or other characteristics of the Software.

**9. Title:** All right, title, and interest (including all intellectual property rights) in, to, and under the Software (including all copies thereof) shall remain with Licensor and its licensors.

**10. High-Risk Activities:** The Software is not fault-tolerant and is not designed, manufactured or intended for use in or in conjunction with on-line control equipment in hazardous environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation systems, air traffic control, or direct life support machines. Licensor, its licensors, suppliers, subcontractors and distributors specifically disclaim any express or implied representations, warranties and/or conditions for such uses.

**11. U.S. Government End-Users:** The Software and Documentation are each a "commercial item" as that term is defined at FAR 2.101, consisting of "commercial computer software" and "commercial computer software documentation" as such terms are defined in FAR 12.212, and are provided to the U.S. Government only as commercial end items. Government end users acquire the rights set out in this Agreement for the Software and Documentation consistent with: (i) for acquisition by or on behalf of civilian agencies, the terms set forth in FAR 12.212; or (ii) for acquisition by or on behalf of units of the Department of Defense, the terms set forth in DFARS 227.7202. Use of the Software and Documentation is further restricted by the terms and conditions of this Agreement. For the purposes of any applicable government use, the Software and Documentation were developed exclusively at private expense, and are trade secrets of Epiphan Systems Inc. for the purpose of any Freedom of Information legislation or any other disclosure statute, regulation or provision.

**12. Export Restrictions:** The Software, Documentation and related information are subject to export and import restrictions. By downloading, installing, or using the Software, Documentation and/or related information, You are representing and warranting that You are not located in, are not under the control of, and are not a national or resident of any country to which the export of the Software, Documentation and/or related information would be prohibited by the laws and/or regulations of Canada or the United States. You are also representing and warranting that You are not an individual to whom the export of the Software, Documentation or related information would be prohibited by the laws and/or regulations of Canada or the United States. You shall comply with the export laws and regulations of Canada and the United States that are applicable to the Software, Documentation and related information and You shall also comply with any local laws and/or regulations in Your jurisdiction that may impact Your right to export, import, or use the Software, Documentation or related information, and You represent and warrant that You have complied with any such applicable laws and/or regulations. The Software, Documentation and related information shall not be used for any purposes prohibited by export laws and/or regulations, including, without limitation, nuclear, chemical, or biological weapons proliferation. You shall be responsible for procuring all required permissions for any subsequent export, import, or use of the Software, Documentation or related information.

**13. Intellectual Property:** Epiphan is a trademark or a registered trademark of Epiphan Systems Inc. in certain countries. All Licensor product names and logos are trademarks or registered trademarks of Epiphan Systems Inc. in certain countries. All other company and product names and logos are trademarks or registered trademarks of their respective owners in certain countries. You shall not disclose, transfer or

---

otherwise provide to any third party any portion of the Software, except as expressly permitted in this Agreement.

**14. General:** This Agreement is the entire agreement between You and Licensor in respect to the Software, superseding any other agreements or discussions, oral or written. The terms and conditions of this Agreement shall prevail over any pre-printed terms on any quotes, orders, purchase orders, or purchase order acknowledgements, and shall prevail over any other communications between the parties in relation to the Software. You may not assign this Agreement whether voluntarily, by operation of law, or otherwise without Licensor's prior written consent. Licensor may assign this Agreement at any time without notice. The failure of a party to claim a breach of any term of this Agreement shall not constitute a waiver of such breach or the right of such party to enforce any subsequent breach of such term. If any provision of this Agreement is held to be unenforceable or illegal, such decision shall not affect the validity or enforceability of such provisions under other circumstances or the remaining provisions of this Agreement and such remaining provisions shall be reformed only to the extent necessary to make them enforceable under such circumstances. This Agreement shall be governed by the laws of the Province of Ontario and the laws of Canada applicable therein. No choice or conflict of laws rules of any jurisdiction shall apply to this Agreement. You shall only be entitled to bring any action or proceeding arising out of or relating to this Agreement, the Software, Documentation or any services provided in respect to the Software and/or Documentation in a court in Ottawa, Ontario, Canada, and You consent to the jurisdiction of such courts for any such action or proceeding. You waive all rights that You may have or that may hereafter arise to contest the jurisdiction of such courts for any action or proceeding brought by You. You hereby waive any right. You may have to request a jury trial with respect to any action brought by You in connection with this Agreement, the Software or any services provided in respect to the Software. The application of the United Nations Convention on Contracts for the International Sale of Goods to this Agreement is expressly excluded.

## **Environmental Information**

The equipment that you bought has required the extraction and use of natural resources for its production. It may contain hazardous substances that could impact health and the environment. In order to avoid the dissemination of those substances in our environment and to diminish the pressure on the natural resources, we encourage you to use the appropriate take-back systems. Those systems will reuse or recycle most of the materials of your end life equipment in a sound way. The crossed-out wheeled bin symbol invites you to use those systems. If you need more information about collection, reuse and recycling systems, please contact your local or regional waste administration. You can also contact us for more information on the environmental performance of our products.

## **FCC & CE Compliance Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation.

Marking by the symbol **CE** indicates compliance of this device with EMC directive of the European Community and meets or exceeds the following technical standard.

---

## **Other Jurisdictional Issues**

Epiphan makes no representation that its products or information in this document or its web site is appropriate or available for use in your jurisdiction. Those who choose to access the Epiphan web site or use Epiphan products do so on their own initiative and are responsible for compliance with local laws, if and to the extent local laws are applicable

## **Submissions to Epiphan and Affiliated Servers**

Any information, including but not limited to remarks, suggestions, ideas, graphics, or other submissions, communicated to Epiphan through their Epiphan web site is the exclusive property of Epiphan. Epiphan is entitled to use any information submitted for any purpose, without restriction (except as stated in Epiphan's Privacy Statement) or compensation to the person sending the submission. The user acknowledges the originality of any submission communicated to Epiphan and accepts responsibility for its accuracy, appropriateness, and legality.

## **Third Parties and Links to Third-Party Web Sites**

Mention of non-Epiphan Systems Inc. products or services on their website, or this document site is for informational purposes and does not constitute an endorsement or recommendation.

This document may contain links to non-Epiphan web sites. These links are provided to you as a convenience, and Epiphan is not responsible for the content of any linked web site. Any outside web site accessed from the Epiphan web site is independent from Epiphan, and Epiphan has no control over the content of that web site. In addition, a link to any non-Epiphan web site does not imply that Epiphan endorses or accepts any responsibility for the content or use of such a web site.

In no event shall any reference to any third party or third party product or service be construed as an approval or endorsement by Epiphan of that third party or of any product or service provided by a third party.

## **Miscellaneous**

It is the user's responsibility to ascertain whether any information downloaded from the Epiphan web site or other websites is free of viruses, worms, trojan horses, or other items of a potentially destructive nature.

## **Enforcement of Terms and Conditions**

These Terms and Conditions for use of this document and the associated Epiphan Product are governed and interpreted pursuant to the laws of the province of Ontario, Canada, notwithstanding any principles of conflicts of law.

All disputes arising out of or relating to these Terms and Conditions shall be finally resolved by arbitration conducted in the English language in Ottawa, Ontario, Canada under the commercial arbitration rules of the

---

Canada. The parties shall appoint as sole arbitrator a retired judge who presided in the province of Ontario. The parties shall bear equally the cost of the arbitration (except that the prevailing party shall be entitled to an award of reasonable attorneys' fees incurred in connection with the arbitration in such an amount as may be determined by the arbitrator). All decisions of the arbitrator shall be final and binding on both parties and enforceable in any court of competent jurisdiction. Notwithstanding this, application may be made to any court for a judicial acceptance of the award or order of enforcement. Notwithstanding the foregoing, Epiphan shall be entitled to seek injunctive relief, security, or other equitable remedies from any court of competent jurisdiction.

If any part of these terms is unlawful, void, or unenforceable, that part will be deemed severable and will not affect the validity and enforceability of the remaining provisions. Epiphan may, at its sole discretion and without notice, revise these terms at any time by updating this posting.
