FA-300HS

Triple-Flash Hot Shoe
Adapter Mount

Thank you for choosing Impact.

The Impact FA-300HS Triple-Flash Hot Shoe Adapter Mount lets you mount and sync three flashes on a single adapter. You can fire the flashes at full power for greater light output or, for faster recycle times, fire them at half power. This unique adapter features a female 1/4"-20 thread for universal mounting, and may be combined with an umbrella, light panel, or other lighting accessories (sold separately).

The Impact FA-300HS Triple-Flash Hot Shoe Adapter Mount has a 3.5 mm jack, so you can use a sync cord to connect the adapter to your camera or wireless receiver. If you own an Impact PowerSync DC Radio Slave System or a similar wireless unit, you can fire them all with a single receiver attached to the adapter. While not designed for use with high-voltage flashes, you can use the Impact FA-300HS Triple-Flash Hot Shoe Adapter Mount to mix and match flashes from most major digital camera manufacturers.
