Turtle Base C-Stand

Silver model shown

Thank you for choosing Impact.

The Impact Turtle Base C-Stand, features a patented locking mechanism that allows the legs to swing out and lock into place for easy setup, and to collapse flat so you can store your c-stands side by side. Often used in conjunction with a grip head and grip arm (sold separately, see Recommended Accessories), you can use the Impact C-Stand to hold lights and light modifiers, such as flags, “cookies,” etc. The Impact C-stand is ideal for mounting heavy items because the stand has a low center of gravity, and it easily accepts saddlebag-style sand bags for additional stability.

The Impact Turtle Base C-Stand, is compatible with other grip equipment available from Impact Studio Lighting. For more information, refer to the Recommended Accessories chapter of this pamphlet.
