

Oben™

TT Series

Table Top Tripod

You're on steady ground™

Thank you for choosing Oben™

Congratulations on the purchase of your new Oben TT series table top tripod. The Oben™ TT series provides a compact and secure platform for shooting. The tripod sets up quickly and is simple to operate. The single lock on the included ballhead offers quick and simple adjustments of the ballhead. The ballhead platform has a standard 1/4" mounting screw for most compact cameras. Included with the tripod is a strap for hand holding and transport.

Please read through this entire manual before using the TT series tripod.

Note: Images are for illustrative purposes only. Actual product may vary.

Note: All ballheads in TT series are removable.

Warnings:

Do not exceed the tripod's maximum load capacity (see packaging for details).

Ensure that all appropriate locks are engaged when necessary.

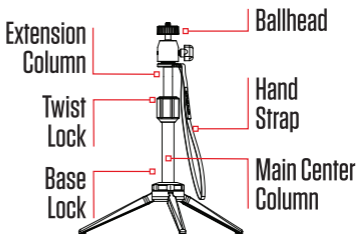

Tripod should only be used in temperatures ranging between -22° to 140° Fahrenheit. Do not operate in saltwater. Dry tripod if it should become wet.

Remove the camera from the ballhead during setup or transport.

Keep out of reach of children.

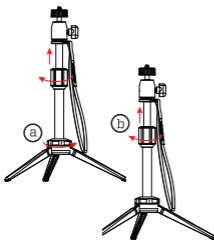

TT-100

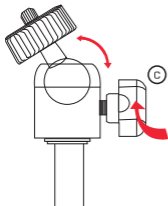

TT-200/TT-300

Setup

The TT-200/300 series has an integrated center column **(a)** that can be unlocked by rotating the base lock counter-clockwise. If a taller setup is required, the extension column **(b)** can be unlocked by turning the twist lock on top clockwise and counter-clockwise to lock the column in place.

The included ballhead can be mounted to the top plate of the tripod by matching the mounting screw on the tripod with the threaded hole of the ballhead and then turning it clockwise until it is hand-tight. The single knob **(c)** on the ballhead locks and unlocks the ball.
