MultiDisc

Before assembling your MultiDisc, make sure all components are present. You will need:

- Translucent inner disc
- Zippered skin with four reflective surfaces
- For 7-in-1 only: Second zippered skin.

Opening and Re-Collapsing the MultiDisc

1. Remove the disc with zippered skin attached from the protective carry bag. **Figure 1**
2. The disc is twisted and collapsed to fit into the carry bag. Slowly and carefully unfold it until it is completely open. **Figure 2**
3. To collapse the disc for storage place one hand up and one hand down on opposing edges of the disc. **Figure 3**
4. Twist one hand toward the other. **Figure 4**
5. Continue twisting, folding one side over the other. **Figure 5**
6. The MultiDisc will now resemble three hoops. **Figure 6**
7. The collapsed MultiDisc can now be sized to properly fit back into the bag. **Figure 7**

Removing the Reflective Skin

8. The MultiDisc's reflective skin can be removed by slowly unzipping the self-repairing zipper.
9. At the end of the zipper there is a hole in the skin where the inner disc's handle is passed through.
10. The inner diffusion disc can now be removed from the outer reflective skin.
11. The MultiDisc's reflective skin can be reversed to expose two more reflective surfaces.
12. Zip the skin on with reverse options exposed and you are ready to use!

Note: For the MultiDisc 7-n-1 there is an additional reflective cover provided, simply remove one to use the other, following the previous steps.
