User Manual

The Ruggard ICB-1517F Folding Padded Printer Carrying Case is the perfect solution for safely hauling your printer to location shoots so you can print photos for your clients. The ICB-1517F incorporates a folding-panel design and is easy to unpack for one-time set up. Its interior panels are made from 3/4" thick foam padding over high-impact plastic honeycomb to protect your printer without unnecessary bulk and weight. The durable 600-denier ballistic nylon exterior resists minor scrapes and bad weather. Inside, the adjustable cushioned divider holds your printer in place and helps organize your gear. Three sturdy handles provide convenient carrying options, and zip pockets on the front of the case and under the lid offer additional storage for slim items.
