

JELLY LEGS MICRO TRIPOD USER'S MANUAL

Thank you for purchasing the Square Jellyfish Jelly Legs Micro Tripod. This product is designed to hold pocket cameras weighing up to 9 ounces that have tripod screw mounts. Jelly Legs will also support smartphones and phablets when using one of the Square Jellyfish Tripod Mounts. Add a Square Jellyfish Micro Ball Head for maximum photo angle flexibility.

It couldn't be easier

To use your Jelly Legs Micro Tripod, simply attach the folded tripod to any device that accepts a $\frac{1}{4}$ x 20 standard camera thread screw. Once attached, unfold the legs to their full position. Confirm that the set-screw is tightened and place your camera and Jelly Legs on a level surface of your choosing. The rubber-tipped legs help hold your tripod securely in place.

Alternatively, the legs of the tripod may be individually adjusted in a range of angles. Using a screwdriver, slightly loosen the set-screw and adjust each leg as desired. Then re-tighten the set-screw and place your camera and Jelly Legs on a level surface. Check to make certain your camera is well balanced; if not, adjust the legs as necessary.

Use common sense

- The Jelly Legs Micro Tripod is designed to hold the camera steady while taking a picture. It is not designed to be mounted to a moving object or vehicle.
- Do not place your camera and Jelly Legs Micro Tripod where they can easily fall a distance that would cause damage to your camera. A small railing and the edge of a cliff are just a few examples that come to mind.
- This product contains small parts that may be a choking hazard. Keep out of reach of children.

JELLY LEGS MICRO TRIPOD PRODUCT WARRANTY

WARNING

This product is designed to hold pocket cameras with tripod screw mounts. Jelly Legs will also support smartphones and phablets when using one of the Square Jellyfish Tripod Mounts. Add a Square Jellyfish Micro Ball Head for maximum photo angle flexibility. This device is designed to support lightweight, compact cameras up to 9 oz., and not heavy cameras, SLRs, or any camera with a lengthy lens or similar extension. Always support the camera with one hand while you are tightening it in place with the other hand. While still supporting it, wiggle the camera a bit to make sure that it will not tip over when you release it, because this might damage your camera! Only you can make a safe evaluation of whether your camera is secure and balanced because of the infinite number of settings which you may choose.

LIMITED WARRANTY

The Square Jellyfish Micro Tripod is warranted against defects in materials and workmanship for a period of ONE (1) YEAR from the date of the original retail purchase. If a defect exists the manufacturer will, at its option and to the extent permitted by law, (1) repair the product at no charge using new

or refurbished parts; or (2) exchange the product with a functionally equivalent product that is new or refurbished; or (3) refund the original purchase price. This warranty excludes damage resulting from abuse, accident, modifications or other causes that are not defects in the materials or workmanship. To the extent permitted by applicable law, the manufacturer is not liable for any direct, indirect, incidental or consequential damage arising out of the use of service of the product, including, but not limited to damage which may be caused to any camera, or to any other device the Square Jellyfish Micro Tripod is used to support. To the extent permitted by applicable law the manufacturer of the Square Jellyfish Micro Tripod disclaims all implied warranties of merchantability and fitness for a particular purpose. If implied warranties cannot be disclaimed, then such warranties are limited in duration to the duration of this warranty. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

To obtain warranty service, contact Square Jellyfish using the information provided at www.squarejellyfish.com

To the extent permitted by applicable law proof of purchase for all warranty repairs/replacement is required.
