How to apply the Vello LCD Screen Protector

1. Clean the LCD screen with a dry, clean cloth. Do not use alcohol or any other solvent.

2. Remove the adhesive back of the LCD Screen Protector.

4. Smooth down with a clean cloth and remove the top film.

How to remove the Vello LCD Screen Protector

1. Heat the edge of the LCD Screen Protector with a hair dryer at about 2" distance for 30-45 seconds. Do not overheat.

2. As the glue of the LCD Screen Protector loosens, lift a corner of the screen protector with your fingernail. For safety, use a business card if the protector is made of optical glass. Do not use any sharp objects.

3. Carefully lift the screen protector. Do not pry or force the screen protector. Apply more heat with the hair dryer if the protector does not release easily.

4. Replace with a new LCD Screen Protector.
