Introduction to Basic Commands

Menu button  : Opens a set of sub-menu functions. If held, opens a list of thumbnail images of apps you've worked with recently. To open an app, touch it. To remove a thumbnail from the list, swipe it left or right.

Home button  : Opens Home. If you're viewing a left or right Home screen, opens the central Home screen. Note that using this key will not really exit the application, the application will continue to run in the background.

Back button  : Opens the previous screen you were working on even if it was in a different app. Once you back up to the Home screen, you can't go back any further in your history.

Introduction to Widgets

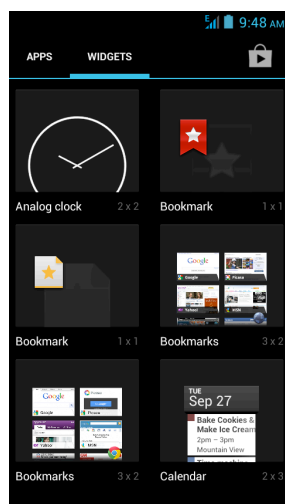

Widgets are like windows inside your apps. They're available from an All Apps tab for you to move onto your Home screens.

To see your widgets:

1. Touch the All Apps icon  on your Home screen.
2. Touch Widgets at the top of the screen.

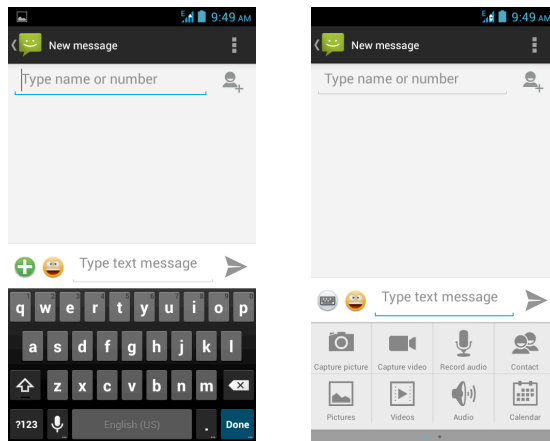

From the main Widgets screen, you can

- Move between screens: Swipe left or right.
- Drag a widget to a Home screen: Touch and hold the widget's icon, slide your finger where you want to place it, and lift your finger.

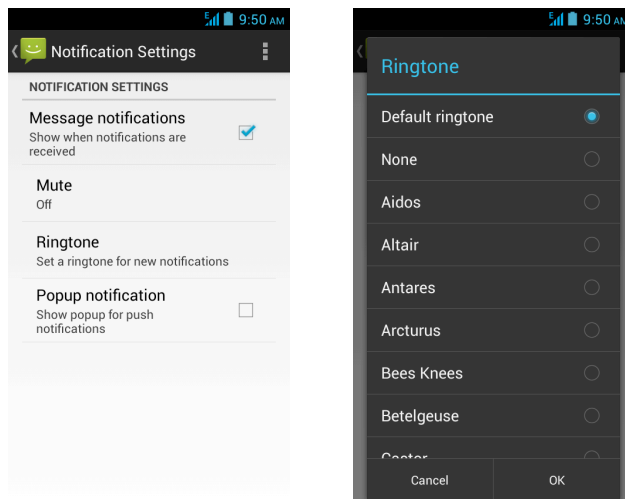

Send MMS

Click “+”, to add additional content.

SMS notification tone

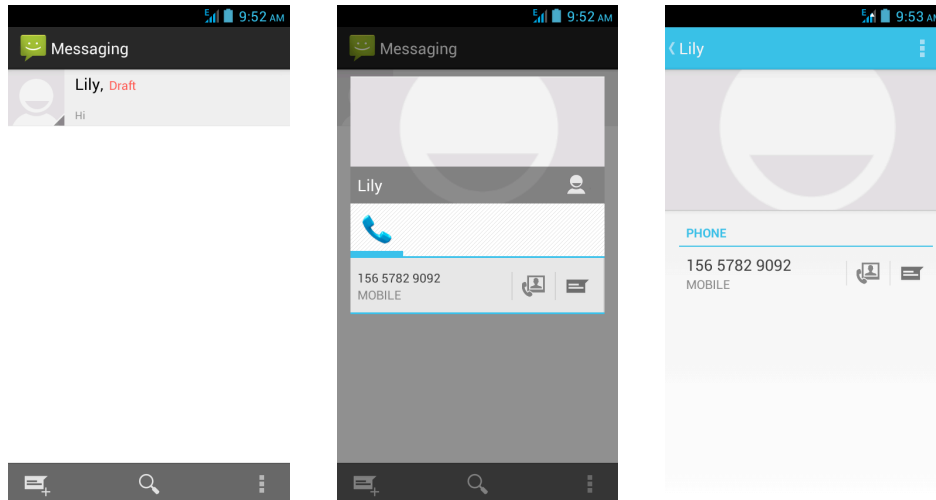

Enter the messaging- click the menu button, select "Settings" function - select "Notification" function

View the sender information

Access to the message screen - select the “message” - click “” – click

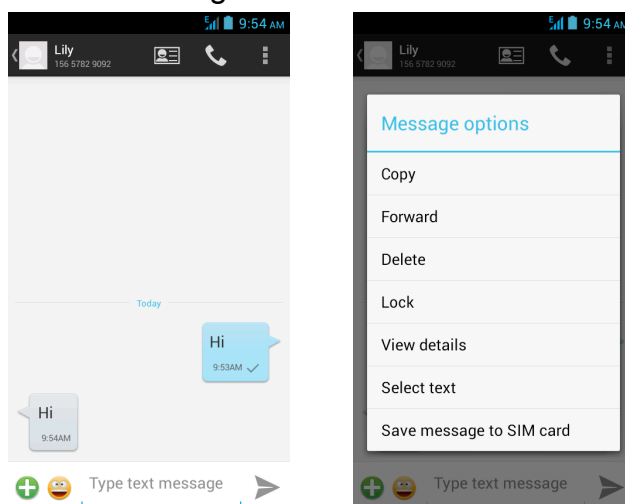

, then you can view the sender information.

Message shortcut keys

Enter the message screen- long press the “message”, then shortcut keys-appear.

Shortcuts include: Copy, Forward, Delete, Lock, View Details, Select text, and save message.

Phone App Features

You can place calls from the Phone app, the People app, or other apps or widgets that display contact information. Wherever you see a phone number, you can usually touch it to dial.

To dial using the Phone app:

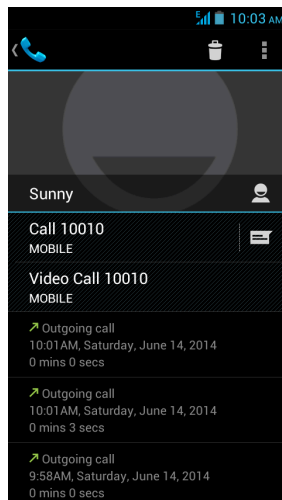

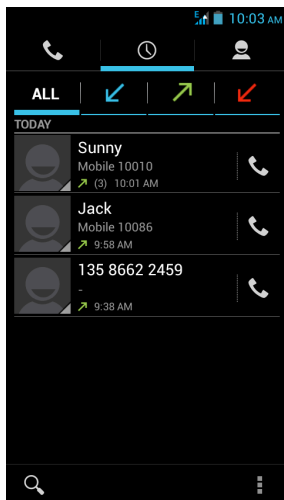

- Touch the Phone Icon  on a Home or All Apps screen. Notice the three tabs at the top of the phone. You can make calls from any of them.
- The Dialer tab  lets you dial manually. Touch the keys to enter the number, then touch the Phone icon below the keypad to dial. If you enter a wrong number, touch  to erase digits one by one. To see numbers for all your contacts, touch . You can also search your contacts from here. To dial an international number, touch & hold the 0 key to enter the plus (+) symbol. Then enter the international prefix for the country, followed by the full phone number.
- The Call log tab  shows recent calls. Touch a call to return it.
- The Favorites tab  shows the numbers you usually call. Touch to dial.

To end a call in progress, touch the End Call icon .
