4-Port USB Wall Charger (Universal)

User Manual

Thank you for choosing Xuma.

The Xuma 4-Port USB Wall Charger (Universal) is a lightweight and compact AC-to-USB power adapter with options for charging up to four USB-compatible devices at once using interchangeable plug adapters for US or European standard outlets. It accepts Standard-A USB cables and has a sleek design for easy transport on the go. It outputs 2.4 Amp per port when two ports are active or a total output of 4.8 Amp across the four ports. Two ports are dedicated for iPad and iPhone devices, while two more called FastCharge, are for tablets and other USB-compatible devices.

Please read the rest of this manual to become more familiar with this charger.

4 Overview

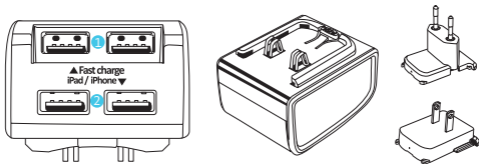

1. FastCharge 2.4 A

- Use these two ports to charge most tablets and other USB-compatible devices.

2. iPad/iPhone 2.4 A

- Use these two ports to charge iPad/iPhone and other Apple devices.

Note: You can use any of the four ports for charging USB-compatible devices. Charging speeds may vary.

Before You Start

Please make sure there is nothing plugged into any of the four USB ports, and the wall charger is not plugged into an electrical outlet.

Step 1:

Match the grooves on the back of the interchangeable adapter over top of the metal contacts on the main body of the wall charger.

Step 1

Step 2:

Slide the adapter, making sure the adapter's flanges slide into the slots of the main body of the USB wall charger, until it locks in place and is seated properly.

Step 3:

Now plug the 4-port USB wall charger into an electrical outlet and connect your USB-compatible devices.
