USER MANUAL

THANK YOU FOR CHOOSING ZIV.

The ZIV BCA-712R Dual-Shoe Bracket is a compact and sturdy “C” shaped bracket that attaches to the bottom of your camera and provides two adjustable cold shoes for mounting lights and other accessories. The camera and bracket thumbscrews also enable mounting onto a tripod, fluid head, ball head or other gear. Two shoe mounts allow for lighting subjects from the side and will also free up your camera’s own shoe mount. The bracket is compatible with most camcorders and DSLRs. The all-metal construction provides durability for extended use at home, in the studio, or on the go.

Note: *A TTL cord is recommended when using a flash combined with a DSLR. The bracket might not sufficiently support a typical hot-shoe flash attached directly.*
